Introduction

Governments, Government education committees, schools, teachers and individual learners are all now realising that education can be, has to be, altered to include and promote a positive emotional response in the classroom and with individual study.

BRAIN FRIENDLY™ PUBLICATIONS and Seminars (available through the website) are designed to optimise what the neuro-scientists and educationalists tell us are pointers to follow and what we have found works for us as teachers in the classroom.

If you would like to know more, or would like to try a small quantifiable step into this stimulating area of learning, please investigate the procedures we use in our title **Teaching for Success** or we can show you in one of our clear, encouraging and highly successful seminars.
